Inside/Outside: A Physician's Journey with Breast Cancer (Conversations in Medicine and Society)

Janet R. Gilsdorf

To doctors, cancer means cells growing out of control; to patients, cancer means a life spinning out of control. Janet R. Gilsdorf, who writes with quiet but devastating honesty about her experience with breast cancer, offers an eye-opening glimpse, through her unique dual perspective as physician and patient, of both sides of the medical divide.

The medical system delivers cures, answers, and relief from pain to those who seek its help, but it can also offer misinformation, shattered expectations, horrible options, and inhumane consideration of the people it is supposed to serve. As Gilsdorf takes us on a journey across the terrifying landscape of cancer, she discovers that there are oases of unfathomable beauty to be found.

Inside/Outside is compelling, sometimes scary, reading as it puts us inside Gilsdorf's skin. It ponders a vast array of profound choices most of us will be confronted with in our lives: thinking versus feeling, knowing versus not knowing, hanging on versus letting go, loving versus hating, and the immeasurable territories of life between the poles. Even as it touches on these universal human themes, ultimately *Inside/Outside* is a story of one person's courage, hope, and survival in the face of terrifying odds.

Janet R. Gilsdorf, M.D., is Professor of Pediatrics and Communicable Diseases, Division of Infectious Diseases, Medical School, and Professor of Epidemiology, School of Public Health, at the University of Michigan. She is also Director of Pediatric Infectious Diseases, Mott Children's Hospital; Director of the Cell and Molecular Biology in Pediatrics Training Program; and Director of the *Haemophilus influenzae* Research Laboratory.
