Multidisciplinary Management Of Migraine: Pharmacological, Manual, and Other Therapies (Contemporary Issues in Physical Therapy and Rehabilitation Medicine) César Fernández-de-las-Peñas, Leon Chaitow, Jean Schoenen

Another selection of the Jones and Bartlett Series: Contemporary Issues in Physical Therapy and Rehabilitation Medicine Multidisciplinary Management of Migraine: Pharmacological, Manual, and Other Therapies is the first textbook focused on the multidisciplinary treatment of migraine including pharmacological and non-pharmacological approaches. This comprehensive text discusses epidemiology, pathophysiology, diagnosis, and management of patients with migraine headache integrating clinical experience and expertise with current evidence-based best practices. The authors are worldwide experts recognized in migraine and headache with experience in academic, research, and practice settings.

Multidisciplinary Management of Migraine: Pharmacological, Manual, and Other Therapies reviews the options for medical management of patients with migraine by way of: pharmacological interventions; musculoskeletal interventions including muscle and joint-centered interventions, manual therapy, and dry needling; and complementary and alternative medicine techniques including naturopathy, acupuncture, and placebo. With a multimodal and multidisciplinary approach, this comprehensive resource provides a variety of therapeutic tools for students and practitioners to provide excellent care and medical management of patients with migraine headache. Key Topics: • Theories of migraine pathophysiology • Sensitization mechanisms • Migraine triggers • Examination of the cervical and thoracic spinal joints • Pharmacological interventions • Musculoskeletal interventions • Alternative medicine techniques This textbook is perfect for completing a headache library combined with tension-type and cervicogenic headache.
