Representations of Compact Lie Groups (Graduate Texts in Mathematics)

Theodor Brocker, Tammo Tom Dieck

Representations of Compact Lie Groups (Graduate Texts in Mathematics) Theodor Brocker, Tammo Tom Dieck

This introduction to the representation theory of compact Lie groups follows Herman Weyl's original approach. It discusses all aspects of finite-dimensional Lie theory, consistently emphasizing the groups themselves. Thus, the presentation is more geometric and analytic than algebraic. It is a useful reference and a source of explicit computations. Each section contains a range of exercises, and 24 figures help illustrate geometric concepts.

From reader reviews:

Bradley Roberts:

The book Representations of Compact Lie Groups (Graduate Texts in Mathematics) can give more knowledge and also the precise product information about everything you want. Why then must we leave a very important thing like a book Representations of Compact Lie Groups (Graduate Texts in Mathematics)? A few of you have a different opinion about reserve. But one aim that will book can give many details for us. It is absolutely proper. Right now, try to closer together with your book. Knowledge or information that you take for that, it is possible to give for each other; it is possible to share all of these. Book Representations of Compact Lie Groups (Graduate Texts in Mathematics) has simple shape however you know: it has great and massive function for you. You can appearance the enormous world by start and read a reserve. So it is very wonderful.

Herlinda Jerkins:

Now a day those who Living in the era just where everything reachable by connect with the internet and the resources inside it can be true or not need people to be aware of each info they get. How a lot more to be smart in getting any information nowadays? Of course the answer then is reading a book. Examining a book can help individuals out of this uncertainty Information particularly this Representations of Compact Lie Groups (Graduate Texts in Mathematics) book since this book offers you rich data and knowledge. Of course the knowledge in this book hundred per cent guarantees there is no doubt in it you know.

Earl Wright:

With this era which is the greater individual or who has ability in doing something more are more precious than other. Do you want to become considered one of it? It is just simple way to have that. What you should do is just spending your time not much but quite enough to have a look at some books. One of several books in the top checklist in your reading list is usually Representations of Compact Lie Groups (Graduate Texts in Mathematics). This book that is certainly qualified as The Hungry Inclines can get you closer in getting precious person. By looking way up and review this book you can get many advantages.

Mark Klein:

As we know that book is significant thing to add our information for everything. By a e-book we can know everything we wish. A book is a list of written, printed, illustrated or maybe blank sheet. Every year had been exactly added. This publication Representations of Compact Lie Groups (Graduate Texts in Mathematics) was filled about science. Spend your time to add your knowledge about your research competence. Some people has various feel when they reading any book. If you know how big good thing about a book, you can sense enjoy to read a guide. In the modern era like currently, many ways to get book that you simply wanted.
