What is beauty? There is inner beauty and outer beauty. Throughout the years, outer beauty has meant different things to different cultures. For example, in some parts of Africa, wooden plates are installed on the inner lip of females to obtain large lips which is considered beautiful. In other parts of the world, large figured women are highly prized, as signs of fertility and wealth. In western culture, a thin and slim figured woman with large breasts and a small waist is alluring.

Inner beauty is highlighted and contemplated through various beauty quotes, that attests outer beauty fades, while inner beauty prevails.

Since an analysis of "beauty" is incomplete without the surgical aspect, we touch upon the various procedures available to enhance our perception of beauty.

In this eBook we look at the universal concept of beauty such as the waist to hip ratio, facial symmetry, what makes us attractive. And the great lengths some men will go through to avoid hearing the ugly "NO".
