Here Is A Preview Of What You'll Learn...

- Why Public Speaking Matters
 - The Fearful Fear
 - Knock That Fear Down, Speak Yourself Up
- Much, much more!

Check Out What Others Are Saying.....

This very short and straight to the point book. Before reading it the thought of public speaking literally would drive me to experience varying levels of stress and anxiety, sometimes even panic attacks. I thank God he allowed me to find this book though, now to see me in front of a crowd you wouldn't believe I was that kind of person before.

I would like to think that I am pretty good at public speaking, but even though I am confident in my abilities I still go through a routine of preparation and building up my mental state to project confidence and audience engagement. I have to say that this book offered a lot of good ideas of prep that I use, but some that I have yet to consider.

I enjoy concise books packed with detailed information and this is one of those books. I would recommend this book to seasoned speakers as well as someone who simply has had a life long phobia to speaking in public.

I have struggled with public speaking myself and found this little book to be full of useful information and tricks to get past my fear of public speaking. I have a speech coming up for my brothers wedding and will use the information in this book to get past my fears. Great book I highly recommend it.
