An Evil Mind--A Suspense Novel Tim Kizer

How do you stop a serial killer who can escape from any prison?

On December 11, fifteen-year-old Helen Hinton is brutally murdered in an abandoned house. Her killer, Edward Phillips, is caught and sentenced to death. Helen's blood was on Edward's clothes and shoes, the murder weapon has his fingerprints on it. Edward claims he's innocent. **He's telling the truth.**

Two months after Edward Phillips is transferred to death row, a murder similar to Helen's occurs in another city. The victim is eighteen-year-old Laura Sumner.

On an October morning, Mark Hinton, Helen's father, visits Edward in prison to talk about Laura Sumner's case. Edward tells him that he knows who really killed Helen.

What he doesn't tell Mark is that the real killer is the most dangerous criminal on the planet.
