## **Basic Well Log Analysis, 2nd Edition** Daniel Krygowski

Basic Well Log Analysis is a general introduction to common openhole logging measurements, both wire line and MWD/LWD, and the interpretation of those measurements to determine the traditional analytical goals of porosity, fluid saturation, and lithology/mineralogy. It is arranged by the interpretation goals of the data, rather than by the underlying physics of the measurements.

The accompanying CD-ROM contains digital versions of the data from the case studies, a summary guide to the measurements and their interpretation, and a simple spreadsheet containing some of the more common interpretation algorithms.

This Second Edition of Basic Well Log Analysis delivers a great impact on training and self-training along with superior workbook exercises, newer measurements, borehole imaging, and nuclear magnetic resonance in separate chapters, all directed to provide a guide through the lengthy and sometimes ambiguous terminology of well logging and petrophysics. It provides readers with interpretation examples (and solutions) so that the techniques described here can be practiced.

American Association of Petroleum Geologists (AAPG)

Founded in 1917, AAPG is the world's largest professional geological society.

AAPG is a pillar of the world-wide scientific community. Our books foster timely scientific research, advance the science of geology and promote the most efficient methods of energy exploration & processing technology and practices available today.

Some of the areas we publish in include:

Well Log Analysis

Geological Modeling

Carbonate Petrology

Seismic Imaging

Reservoir Characterization

Regional Petroleum Analysis

Tectonics and Sedimentation

Stratigraphy

### **From reader reviews:**

#### **Kate Word:**

Book is to be different for every single grade. Book for children until eventually adult are different content. As it is known to us that book is very important for people. The book Basic Well Log Analysis, 2nd Edition was making you to know about other expertise and of course you can take more information. It is rather advantages for you. The e-book Basic Well Log Analysis, 2nd Edition is not only giving you more new information but also for being your friend when you experience bored. You can spend your spend time to read your e-book. Try to make relationship with all the book Basic Well Log Analysis, 2nd Edition. You never really feel lose out for everything in case you read some books.

#### **Perla Baxter:**

The particular book Basic Well Log Analysis, 2nd Edition will bring that you the new experience of reading a book. The author style to clarify the idea is very unique. Should you try to find new book to read, this book very ideal to you. The book Basic Well Log Analysis, 2nd Edition is much recommended to you you just read. You can also get the e-book from official web site, so you can quickly to read the book.

#### **Erin Cummins:**

Reading can called imagination hangout, why? Because while you are reading a book mainly book entitled Basic Well Log Analysis, 2nd Edition your thoughts will drift away trough every dimension, wandering in every single aspect that maybe unidentified for but surely might be your mind friends. Imaging every word written in a book then become one type conclusion and explanation this maybe you never get just before. The Basic Well Log Analysis, 2nd Edition giving you one more experience more than blown away your brain but also giving you useful details for your better life in this era. So now let us show you the relaxing pattern at this point is your body and mind will likely be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary investing spare time activity?

#### **Wilma Tovar:**

Your reading 6th sense will not betray you, why because this Basic Well Log Analysis, 2nd Edition book written by well-known writer we are excited for well how to make book that could be understand by anyone who also read the book. Written in good manner for you, still dripping wet every ideas and publishing skill only for eliminate your personal hunger then you still hesitation Basic Well Log Analysis, 2nd Edition as good book not simply by the cover but also by content. This is one guide that can break don't determine book by its protect, so do you still needing one more sixth sense to pick this particular!? Oh come on your reading through sixth sense already said so why you have to listening to yet another sixth sense.
