Compiled in this volume is the most significant accumulation of works on the subject of African American leadership to date. As the field of leadership studies continues to grow, this timely work contributes to an understanding of the activities of those people and organizations that have been leaders of people of African descent and have contributed to the cultural and political affairs of the black community, as well as the representation of the black community in mainstream American life. The annotated entries cover a variety of works on subjects such as dedicated black leadership studies, local descriptions and analyses, biographies, leadership organizations, and audio-visual materials. This reference is an important contribution to the field of leadership studies in general, and African American leadership in particular, and will serve as a valuable research tool for educators and practitioners alike.

The entries are organized into six sections, which offer a broad overview of the various aspects of African American leadership. Part I, Critical Studies and Appraisals, focuses on the history of works dedicated to both national and local leaders and their politically relevant activities. The next section, Local Leadership Studies, is organized around black leaders who served local communities and the various issues they addressed. Part III looks at relevant social movements and ideologies that have highlighted the activities of black leaders. Individual leaders who have made contributions to the political life of the black community are included in Part IV, while leadership organizations are highlighted in Part V. The concluding section of the volume looks at available audio-visual materials. A thorough index rounds out the bibliography.
