**ANOTHER French False Flag?: Bloody Tracks from Paris to San Bernardino** Dr. Kevin J. Barrett

Were the "terrorist attacks" in Paris and San Bernardino false flag operations? Most of this book's 26 contributors say "yes." Though the government, academy, and mainstream media are afraid to explore the evidence, these 26 leading public intellectuals - including former high-level government officials, professors, and journalists - fearlessly explain how and why our own governments are slaughtering us in horrific terror events set up to be falsely blamed on "radical Muslim" patsies. From the Pentagon's "Operation Gladio," a US military program which orchestrated almost all of the high-profile "terrorist attacks" during the Cold War, to the post-9/11 era, abundant evidence indicates that most terrorism is created by governments and falsely blamed on their enemies. The motive: Roll back freedom, promote authoritarian leadership, and prepare the public for war. In this book, former CIA counter-terrorism officers Philip Giraldi and Robert David Steele, leading economic advisor to President Reagan Paul Craig Roberts, and two dozen other top analysts question the official stories of what happened in Paris on 11/13/15 and in San Bernardino on 12/2/15. This book was published on the first anniversary of the Charlie Hebdo attacks. It follows on the heels of *We Are NOT Charlie Hebdo! Free Thinkers Question the French 9/11*, which garnered praise from 9/11 researcher leader David Ray Griffin, international law professor Richard Falk, and former Canadian Defense Minister Paul Hellyer, among other luminaries. *ANOTHER French False Flag*, and *We Are NOT Charlie Hebdo*, have pioneered a new genre: "Open-Source Intelligence" projects that expose big false flags shortly after they happen. Why is this necessary? Normally, false flags are designed so that the Official Story is hammered deep into the public mind in the immediate aftermath of the event, when people are in a state of shock and susceptible to mass hypnosis. If critics wait too long to express a skeptical view, it will fall on deaf ears. So if we want to win the "infowar" by spreading the truth, we need to act as quickly as possible. These books do that. *ANOTHER French False Flag* is a monument to free speech in a time of cowardice and censorship (especially self-censorship). Editor Kevin Barrett has been attacked indirectly by French President François Hollande in anti-conspiracy-theory tirades, and named as one of the five most dangerous "conspiracy intellectuals" in the world by Hollande's think tank, the Jean Jaurès Institute. That hasn't stopped Barrett from repeatedly flying to Paris to give interviews (in French) and participate in conferences in which he tells the French people that it is Hollande's government and its foreign allies—NOT "radical Muslims"—who have been mass-murdering them in their streets, offices, stadiums, cafés and nightclubs. *ANOTHER French False Flag* and its predecessor *We Are NOT Charlie Hebdo* are the most important books the truth movement has produced since the 2002 – 2005 period that gave us the seminal works of Thierry Meyssan, Nafeez Ahmed, David Ray Griffin, and Webster Tarpley. As former Canadian Defense Minister Paul Hellyer says, "Today's Western governments and mainstream media are not trustworthy. If you want the truth, you need to read books like this."
