Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation)

Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation)

These contributions, written by the foremost international researchers and practitioners of Genetic Programming (GP), explore the synergy between theoretical and empirical results on real-world problems, producing a comprehensive view of the state of the art in GP. Topics in this volume include: evolutionary constraints, relaxation of selection mechanisms, diversity preservation strategies, flexing fitness evaluation, evolution in dynamic environments, multi-objective and multi-modal selection, foundations of evolvability, evolvable and adaptive evolutionary operators, foundation of injecting expert knowledge in evolutionary search, analysis of problem difficulty and required GP algorithm complexity, foundations in running GP on the cloud – communication, cooperation, flexible implementation, and ensemble methods. Additional focal points for GP symbolic regression are: (1) The need to guarantee convergence to solutions in the function discovery mode; (2) Issues on model validation; (3) The need for model analysis workflows for insight generation based on generated GP solutions – model exploration, visualization, variable selection, dimensionality analysis; (4) Issues in combining different types of data. Readers will discover large-scale, real-world applications of GP to a variety of problem domains via in-depth presentations of the latest and most significant results.

From reader reviews:

Tiara Garcia:

The book Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) make you feel enjoy for your spare time. You can use to make your capable far more increase. Book can for being your best friend when you getting strain or having big problem together with your subject. If you can make examining a book Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) being your habit, you can get far more advantages, like add your own capable, increase your knowledge about a few or all subjects. You could know everything if you like open and read a book Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation). Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this e-book?

Amy Rodriguez:

Here thing why this kind of Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) are different and reputable to be yours. First of all reading a book is good nonetheless it depends in the content of computer which is the content is as scrumptious as food or not. Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) giving you information deeper since different ways, you can find any publication out there but there is no publication that similar with Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation). It gives you thrill looking at journey, its open up your personal eyes about the thing which happened in the world which is maybe can be happened around you. You can easily bring everywhere like in recreation area, café, or even in your method home by train. In case you are having difficulties in bringing the paper book maybe the form of Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) in e-book can be your choice.

James Wendler:

This Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) is brand new way for you who has fascination to look for some information as it relief your hunger info. Getting deeper you upon it getting knowledge more you know or perhaps you who still having little digest in reading this Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) can be the light food to suit your needs because the information inside this particular book is easy to get by anyone. These books build itself in the form and that is reachable by anyone, yes I mean in the e-book application form. People who think that in book form make them feel drowsy even dizzy this e-book is the answer. So you cannot find any in reading a guide especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss it! Just read this e-book style for your better life and also knowledge.

Zoe Harris:

Many people said that they feel fed up when they reading a e-book. They are directly felt the idea when they

get a half areas of the book. You can choose the particular book Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) to make your own reading is interesting. Your personal skill of reading proficiency is developing when you like reading. Try to choose very simple book to make you enjoy to see it and mingle the feeling about book and studying especially. It is to be very first opinion for you to like to available a book and study it. Beside that the guide Genetic Programming Theory and Practice XI (Genetic and Evolutionary Computation) can to be your friend when you're really feel alone and confuse in doing what must you're doing of their time.
