From beginning to end, our lives are made up of countless situations and circumstances that, whether we know it or not, require us to make choices. These choices will either improve our lot in life or bring us to a place of in-harmony - less than our real worth. Whether or not we elect to choose and, following that, how we choose to react to these potentially life changing events ultimately determines how our life will turn out. I always thought that by not facing these issues and ultimately not choosing, I could duck and it would pass right on by. My divorce and the resulting pain and hurts caused me to look inside, a daunting task at that time in my life. This book is all about my personal discovery of the inevitable truth that we must choose a path and not choosing is in itself a choice to be less than we are capable of being. It is based on my experiences and I want to share them with you.

Life, it has been said, is made up of 10% what happens to us and 90% how we react to it. We will explore what is needed to change the way we look at our lives and the forces that operate in it. Like me and countless others, my hope is that you will discover how to get a better handle on your life and come to the amazing, yet humbling fact that – Good or Bad? – It's Your Call!
