Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series)

Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series)

The majority of Americans reside in urban or suburban settings where well-maintained turf grass provides numerous aesthetic, safety and ecological benefits. By one estimate, up to 90% of Americans may come into some contact with grass on a given day. This contact could be in the form of school children playing kickball during recess, an office worker walking to lunch with colleagues, a golfer practicing at the local driving range, a soccer team kneeling for a pre-game pep talk from their coach or a home-owner puttering about the lawn on a relaxing weekend. As current turf management practices frequently involve the use of pesticides and other crop protection chemicals, there exists a need to continuously improve our ability to assess the environmental and/or human health risks which may be posed by these compounds. In addition to pollution and drinking water issues, there are concerns surrounding the widespread population declines observed for amphibians, insect pollinators, and endangered species such as salmon...Pesticides used on turf grass are being detected in urban surface and ground waters; the verdict is still out on the role that this category of pesticide use may play, if any, in regional environmental impacts and declines. Regardless, the need for improved procedures and models to assess potential ecological exposure from pesticides remains high.

This book is based on a symposium held at the 230th National Meeting of the American Chemical Society in Washington, DC. It presents advances made in techniques used for measuring, modeling and assessing the human and ecological effects of pesticides applied to turf grass. The book chapters are ordered in three sections: the first presents exposure assessments; the second, field studies; and the third, probabilistic modeling methodologies."

From reader reviews:

Alicia Mendes:

Reading can called mind hangout, why? Because when you find yourself reading a book mainly book entitled Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series) your brain will drift away trough every dimension, wandering in most aspect that maybe unidentified for but surely can be your mind friends. Imaging each word written in a e-book then become one application form conclusion and explanation this maybe you never get ahead of. The Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series) giving you one more experience more than blown away the mind but also giving you useful information for your better life within this era. So now let us show you the relaxing pattern at this point is your body and mind will be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary shelling out spare time activity?

Christi Ross:

In this era which is the greater person or who has ability to do something more are more precious than other. Do you want to become one among it? It is just simple solution to have that. What you need to do is just spending your time almost no but quite enough to get a look at some books. One of many books in the top checklist in your reading list is usually Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series). This book that is qualified as The Hungry Slopes can get you closer in growing to be precious person. By looking upwards and review this guide you can get many advantages.

Jose Tiernan:

A lot of publication has printed but it is different. You can get it by internet on social media. You can choose the best book for you, science, amusing, novel, or whatever by searching from it. It is referred to as of book Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series). You can contribute your knowledge by it. Without causing the printed book, it could add your knowledge and make an individual happier to read. It is most essential that, you must aware about book. It can bring you from one location to other place.

Sherry Francis:

Reading a e-book make you to get more knowledge from it. You can take knowledge and information from your book. Book is prepared or printed or highlighted from each source this filled update of news. With this modern era like currently, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just in search of the Turf Grass: Pesticide Exposure Assessment and Predictive Modeling Tools (ACS Symposium Series) when you necessary it?
