The New European Union: Confronting the Challenges of Integration (Studies on the European Polity)

Steve Wood, Wolfgang Quaißer

This concise but wide-ranging work explores the major political, economic, and strategic challenges confronting the European Union in the context of a rapidly changing geopolitical environment. Steve Wood and Wolfgang Quaißer consider the actors and issues at the center of current developments in the integration process. Beginning with some basic conceptual questions - for example, what is Europe? - they focus on the Union's increasingly complex politics and economy. Their discussion ranges from political economy, to policy reform and institutional change, to the arena of international relations. They also address the more intangible factors of European identity and common political will. An intriguing set of possible future scenarios concludes the authors' up-to-date examination of the EU after enlargement.
